NEHA KESHAV KALOKHE

Full Stack .NET Developer | ASP.NET Core • Angular • SQL Server

Location: Pune, India Phone: +91 7030152417 Email: nehalimbhore@gmail.com
LinkedIn: linkedin.com/in/neha-kalokhe-047b68275

PROFESSIONAL SUMMARY

Results-driven Full Stack .NET Developer with 3+ years of enterprise experience designing, developing, and deploying scalable web applications and RESTful APIs using ASP.NET Core, C#, Angular, and SQL Server. Proven track record in optimizing database performance, modernizing legacy ASP.NET MVC systems, and managing release workflows in Azure DevOps. Demonstrated experience delivering enterprise document management and workflow automation platforms that reduced operational processing time by up to 40%.

TECHNICAL SKILLS

Backend & Frameworks: C#, ASP.NET Core, ASP.NET MVC, Classic ASP.NET, RESTful Web APIs, Entity Framework Core

Frontend Technologies: Angular, TypeScript, JavaScript, HTML5, CSS3, Bootstrap, Responsive UI Design

Database & Querying: SQL Server, Stored Procedures, Database Indexing & Performance Tuning

DevOps & Tools: Azure DevOps, Azure DevOps Repos & Pipelines, Visual Studio

Methodologies: Agile/Scrum, Software Modernization, Code Reviews, REST API Design, SDLC

WORK EXPERIENCE

Software Developer — KSB

Pune, India | Nov 2022 – Present

- **Architecture & API Development:** Architect, maintain, and scale full-stack web applications using ASP.NET Core, C#, Web API, and SQL Server, ensuring high availability for business-critical operations.
- **Frontend Integration:** Engineer responsive, high-performance UI components with Angular, Bootstrap, and JavaScript, improving accessibility and end-user engagement across internal and client-facing tools.
- **Azure DevOps Workflows:** Manage version control, branch strategies, and CI/CD pipelines exclusively within Azure DevOps, streamlining build and deployment workflows to reduce release friction.
- **Legacy System Modernization:** Refactor and modernize legacy applications built on Classic ASP.NET and ASP.NET MVC, applying current clean architecture standards and security best practices.
- **Performance Optimization:** Troubleshoot and resolve complex production defects across the stack while optimizing SQL queries, indexes, and stored procedures to minimize downtime and latency.

KEY PROJECTS

PMPS DDS & QDDS Portals (Document Management Systems)

Technologies: ASP.NET Core, ASP.NET MVC, SQL Server, Entity Framework, Angular

- Engineered centralized document management and quality distribution platforms designed for large-scale engineering files and workflows.
- Improved document retrieval and distribution speed by 30%-40% through SQL Server database indexing, query optimization, and back-end performance tuning.

Idea Management & Reward System

Technologies: ASP.NET Core, C#, SQL Server, Angular

- Built an automated enterprise platform for registering, evaluating, and rewarding innovative ideas, increasing overall user engagement by 25%.
- Developed automated email notification modules and dynamic reporting dashboards using complex SQL Stored Procedures and C#.

E-Warranty Management System

Technologies: ASP.NET MVC, C#, SQL Server

- Designed an end-to-end warranty processing system, eliminating manual tracking efforts for operations and reducing claim handling turnaround time.

EDUCATION

Master of Science (M.Sc.) in Computer Science — **2025** — **CGPA: 8.27 / 10**
Savitribai Phule Pune University

Bachelor of Science (B.Sc.) in Computer Science — **2022** — **76.67%**
Savitribai Phule Pune University

Higher Secondary Certificate (HSC), Science — **2017** — **61.23%**
Shri Mhalsakant Vidyalaya, Akurdi

Secondary School Certificate (SSC) — **2015** — **84.00%**
